WORK EXPERIENCES

Digital Network Associate

I.T Department

Jul 2024 – Present

Nationlink/Infoserve Inc.

- Developed and maintained business intelligence and CRM web applications using ASP.NET MVC/Core and Web API, integrating interactive dashboards and automated email notifications.
- Performed NOC duties ensuring 24/7 system uptime for ATM, POS, and EMV networks; generated and published daily performance reports for internal analytics.

PROJECTS

KinderPal | C#, Unity, Blender

2023

- Developed KinderPal, a mobile-based learning app for Barangay 740 Day Care Center, integrating AR and 3D-rendered objects to offer a comprehensive and engaging educational experience for children.

Finance Management Console | C#, Blazor, .NET Framework

2026

- Developed a **Finance Management Console (FMC)** — a full-stack web application built with Blazor/.NET that centralizes financial operations for multi-branch organizations, featuring e-money account management, payroll processing, wallet management, role-based dashboards, and email notifications via a RESTful API architecture.

QR Report Generator | C#, WinForms, .NET Framework, Crystal Reports

2026

- A Windows desktop application that automates QR payment transaction reporting by extracting data from a live payment switch database and generating financial reports (daily summaries, merchant activity, fee distributions) for operations and finance teams across the organization's merchant network.

EDUCATION

Bachelor of Science in Information Technology

Universidad de Manila

College of Engineering and Technology

Graduated: August 2024

659-A Cecilia Muñoz St, Ermita, Manila

ACHIEVEMENTS AND AWARDS

Cum Laude, Universidad de Manila – **August 2024 | GPA: 3.50**

Dean's Lister, First to Fourth Year, Universidad de Manila – June 2021 to 2024
